

The Nidderdale Plus Partnership Company No 5331403; Registered charity number: 1163998

## ENVIRONMENT POLICY

The Nidderdale Plus Partnership recognises that all the activities of individuals and organisations have some impact on the environment. Our aim is to reduce the impact of our own organisation through a programme of continuous improvement.

### Aims:

- Energy: we will strive to reduce our energy consumption through continuing efficient use of heating, lighting and office equipment, ensuring all office equipment is switched off at night
- Recycling: we will continue to collect and recycle office paper and seek opportunities for additional recycling of other office products, together with kitchen products
- Transport: we will encourage staff, Directors and our partner organisations to car-share whenever possible whilst engaged in activities associated with the organisation
- Supporting local businesses: we will continue to support local businesses in our purchases of products, thus reducing our carbon footprint together with supporting our local economy
- Legislation: we will meet or exceed all applicable regulations to the environment at our office location
- We will encourage the adoption of similar principles by our partners and clients
- We will review progress on a quarterly basis

This policy will be monitored and reviewed by the Board of Directors on an annual basis. A copy will be made available to our partner organisations and will be posted on our website.

Signed.....Chair, Board of Trustees
